MEMORANDUM

April 29, 2021

Mr. Jere A. "Buddy" Williams, P.E.
District Engineer
TXDOT – Atlanta District
701 East Main
Atlanta, Texas 75551

Subject: Administrative Modification Two
Texas 2021-2024 Transportation Improvement Program (TIP)

Dear Mr. Williams:

Pursuant to the guidelines in the Texarkana MPO Public Participation Plan this letter is to inform you of the modification to the Texas 2021-2024 TIP. The Public Participation Plan allows for minor revision to the long-range Metropolitan Transportation Plan (MTP), Transportation Improvement Program (TIP), and the Unified Planning Work Program (UPWP). This modification is at the request of FHWA Texas Division to include TIP project contribution to Performance Targets in the Texas 2021-2024 TIP in accordance with 23 CFR 326. Pursuant with the Planning rule, the Texas Department of Transportation (TxDOT) and each Texas MPO, Texarkana MPO, must 1) include discussion concerning the implementation of performance-based planning and programming, and 2) reflect the anticipated effect of the TIP towards achievement of the performance targets and link investment priorities to the performance targets.

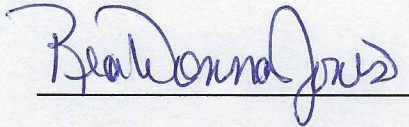

This administrative modification will serve as documentation of the revision of the Texas 2021-2024 TIP and a copy will be provided to TxDOT-TTP to be uploaded to the electronic 2021-2024 Statewide Transportation Improvement Program (eSTIP).

A copy of the memorandum with all our signatures will be transmitted to you for your records.

The full Policy Board will be informed of this action by memorandum.

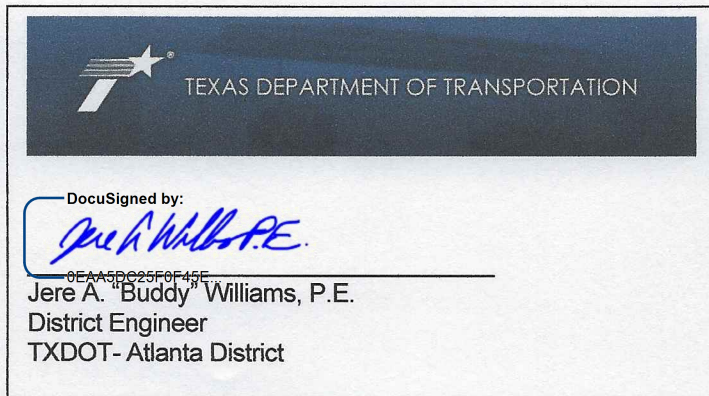

Thank you for your assistance with this matter. Please contact me if you need any additional information.

Sincerely,

Rea Donna Jones
Director
Texarkana MPO

Enclosure

PROJECT CONTRIBUTION TO PERFORMANCE TARGETS

Project Contribution to Performance Targets

As part of Moving Ahead for Progress in the 21st Century Act (MAP-21) and continuing in the Fixing America's Surface Transportation (FAST) Act, State Departments of Transportation (DOTs) and Metropolitan Planning Organizations (MPOs) are required to move towards a performance-based planning process with an emphasis on project selection based on specific planning factors.

The FAST Act continues MAP-21's overall performance approach and ensures that State DOTs and MPOs invest in projects that collectively make progress toward the National Goals that were established by Congress.

Currently, under the FAST Act, State DOTs and MPOs are required to establish performance targets and report on the progress made toward achieving each of these performance targets.

The following tables represents the projects programmed in the Texarkana 2021-2024 TIP, and the targets that they are anticipated to positively affect. By agreeing to support TxDOT performance targets in Safety (PM1), Pavement and Bridge condition (PM2), and Travel-Time Reliability (PM3), and Transit Asset Management (TAM). The Texarkana MPO has agreed to coordinate with TxDOT to program projects that will contribute to the accomplishment of those goals, measures, and targets.
